

Why close registration on Sept. 24?

After announcing widely, on multiple platforms that PTF21 would have a one-month registration window, and close three weeks before the event - registration for all events at PTF21 closed on Friday, Sept. 24.

Patapsco Trail Fest is a large, complex event that takes place in multiple counties, involves river crossings, medical staff, radio teams, permitting with several agencies, and is produced and staffed by volunteers.

With the current public health situation, we need to have a firm handle on how many participants will be at the event and plan accordingly. **There is no day of registration at PTF21.** This year the event fields are smaller, the events are dispersed throughout the park and we are focused on a fun and safe event. Less is more at PTF21.

How can I be a part of PTF21?
